Your Best Grinding Choice!

EB Grinding Wheel

Feature

Introducing EB, the ideal solution for high-speed, precision grinding of heat-sensitive metals. Engineered with premium white aluminum oxide abrasive, these wheels deliver exceptional cutting performance and extended wheel life.

White Aluminum Oxide

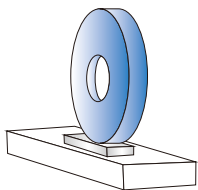

Provides a cool and aggressive cutting action, minimizing heat buildup and preventing workpiece damage.

High Friability

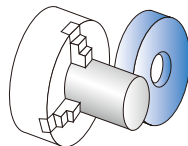

The abrasive grains fracture readily, exposing fresh, sharp cutting edges for consistent performance and reduced burn.

Application

Surface Grinding

Cylindrical Grinding

Specifications

Coarses 46 ← Grit → 120 Fine

Soft H ← Hardness → J Hard

Workpiece material

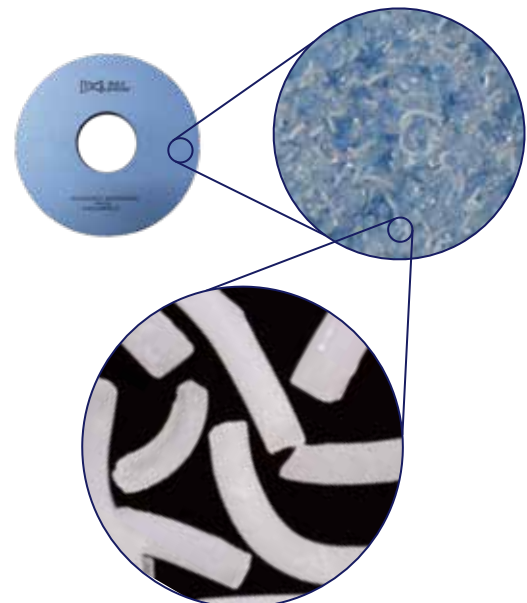

FC · FCD · S45C · SCM · SKD

Extension

EB Standard version

EBT Enhanced version EB+TG

The needle-shaped "TG" abrasive significantly enhances the performance of EB.
